

# Careers event

Dec 4, 2023

Work and career opportunities in science and research for people with disabilities

In cooperation with:

**HELMHOLTZ**

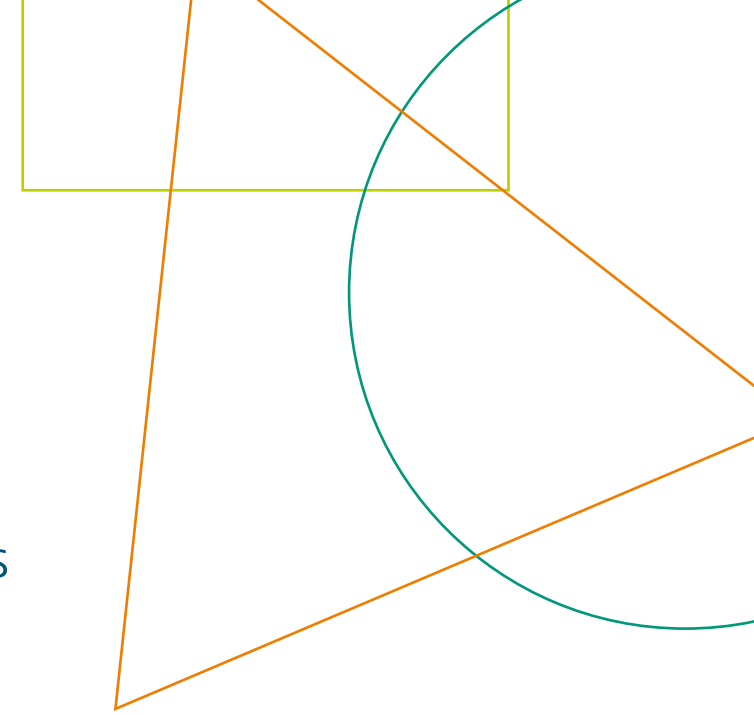

**DFG** Deutsche Forschungsgemeinschaft

# Seven Alliance organizations – one subject

---

This careers event is all about work and career opportunities in science and research for people with disabilities

## What can you expect?

Learn more about working life and the various work and career opportunities in science and research in a series of virtual lectures, and gain an understanding of how inclusion works at the various science organizations.

There will be plenty of opportunity during the various forums to engage in personal discussion with others attending, as well as with managers and employees, both with and without disabilities, from the seven Alliance organizations taking part.

**We look forward to meeting you and would like to use this event to support you on your career path in research and science!**

## Benefits from attending include ...

- Information about entry opportunities and career paths in science and research
- Inspiration for career planning
- Invitations to swap ideas with others attending
- Networking opportunities with staff working at the Alliance organizations
- Hearing personal experiences of people with disabilities in various fields of work in science, administration and technology

## About the Inclusion Initiative

Headed by the Fraunhofer-Gesellschaft and the Max Planck Society, the Alliance of Science Organizations in Germany has launched the Inclusion Initiative. The aim is to break down both visible and invisible barriers while actively encouraging people with disabilities to go into science and research, as well as promoting opportunities for career development.

## Information

**Where:** Microsoft Teams

**When:** December 4, 2023, 10:00 a.m.–03:00 p.m.

**Cost:** This event is free.
